

MASTER SERVICE AGREEMENT

Tuition Management System (TMS) — White Label Ownership

Effective Date: 29 June 2026

1. RECITALS & BACKGROUND

This Master Service Agreement (“Agreement”) is entered into as of 29 June 2026 between Lucaz Soft Pvt. Ltd. (“Lucaz Soft” or “Party A”), a software development company registered in Nepal, and Sanskardip Shikshalaya (“Client” or “Party B”), an educational institution located at Damak-6, Jhapa, Nepal.

Lucaz Soft has agreed to design, develop, and deliver a cloud-based Tuition Management System (TMS), a multi-branch web and mobile platform purpose-built for educational institutions across Nepal under the White Label Ownership Model as described in Proposal B dated 29 May 2026 and the accompanying Product Requirements Document v2.0 (PRD v2.0).

This Agreement governs the entire engagement, including scope, payment, timelines, intellectual property, confidentiality, and post-handover obligations. All Statements of Work (SOWs) executed under this Agreement are incorporated herein by reference.

2. SCOPE OF SERVICES

Lucaz Soft shall design, develop, test, deploy, and hand over the complete Tuition Management System (TMS) as defined in PRD v2.0. The system shall include:

- Web application (React frontend) and mobile-compatible interface
- Backend API (Node.js) and database (PostgreSQL)
- Multi-branch administration and student management modules
- Fee collection, invoicing, and Nepal Pay payment gateway integration
- SMS gateway and Firebase push notification integration
- Admin dashboard, reporting, and audit trail
- Full source code, database schema, API documentation, and deployment scripts
- One full day (4–6 hours) remote technical handover session

Development shall be executed across three (3) phases as defined in PRD v2.0, each delivered within a 15-day window, resulting in a total project delivery period not exceeding sixty (60) calendar days from the Commencement Date.

3. PROJECT TIMELINE & DELIVERY PHASES

The project shall be completed within sixty (60) calendar days from the Commencement Date (the date Milestone 1 payment is received and development formally commences). Each of the three development phases shall be delivered within a fifteen (15) calendar-day window as follows:

Phase	Timeline	Deliverables	Acceptance
Phase 1	Days 1–15	Core architecture, database schema, authentication, multi-branch admin module, student enrolment module.	Written client acceptance triggers Milestone 2 payment.
Phase 2	Days 16–30	Fee management, invoicing, Nepal Pay integration, SMS gateway, reporting dashboard, notification module.	Written client acceptance triggers Milestone 3 payment.
Phase 3	Days 31–45	Mobile-responsive UI, Firebase push notifications, social API integration, QA & testing, bug fixes, UAT.	Written client acceptance triggers Milestone 4 payment.
Handover	Days 46–60	Source code delivery, documentation package, deployed instance handover, credentials transfer, technical handover session.	A signed Handover Acceptance Form triggers a 6-month support window.

If Lucaz Soft requires additional time beyond the stated 60-day period due to Client-caused delays (including late provision of required credentials, content, or feedback), the timeline shall be extended by a corresponding number of days at no additional cost to the Client. Delays caused by Lucaz Soft shall not result in additional charges to the Client.

4. PAYMENT STRUCTURE & MILESTONES

4.1 Total Contract Value

The total fixed-price contract value for the complete TMS White Label Ownership engagement is:

NPR 1,50,000 (One Lakh Fifty Thousand Rupees Only)

4.2 Milestone Payment Schedule

#	Milestone / Trigger	Phase	Timeline	%	Amount (NPR)
1	Partnership agreement signed, non-refundable deposit	Phase commencement 1	Day 1	25%	37,500
2	Phase 1 delivery & written client acceptance	Phase commencement 2	Day 15	30%	45,000
3	Phase 2 delivery & written client acceptance	Phase commencement 3	Day 30	25%	37,500
4	Final delivery, source code handover & written acceptance	Project complete	Day 45-60	20%	30,000
TOTAL — All Phases (60-Day Project)				100%	1,50,000

4.3 Payment Terms

- Each milestone payment is due within five (5) business days of the trigger event.
- Payments shall be made via bank transfer to the account details provided by Lucaz Soft in the applicable invoice.
- Milestone 1 (NPR 37,500) is strictly non-refundable once development commences.
- Lucaz Soft reserves the right to suspend work if any milestone payment remains outstanding for more than seven (7) business days beyond the due date.
- All amounts are in Nepalese Rupees (NPR) and inclusive of applicable taxes unless stated otherwise.

5. HANDOVER PROCESS

Upon receipt of the final milestone payment (Milestone 4 — NPR 30,000), Lucaz Soft shall initiate a structured handover comprising the following:

1. Source Code Delivery	Complete source code via private Git repository transfer or encrypted ZIP. Includes React frontend, Node.js backend, and PostgreSQL database code.
2. Documentation Package	API reference guide, database schema diagrams, environment setup guide, third-party integration setup (Nepal Pay, SMS gateway, Firebase), and admin user manual.
3. Deployed Instance Handover	Transfer of live production deployment to client-controlled hosting. Domain, SSL, server credentials, and database admin access were transferred.
4. Credentials & Third-Party	All API credentials, service accounts, and integration tokens were transferred. Client must register their own Nepal Pay merchant, SMS gateway, and Firebase accounts.
5. Technical Handover Session	One full-day remote session (4–6 hours) covering codebase walkthrough, deployment procedures, maintenance tasks, and Q&A.
6. 6-Month Support Window	From the date of signed handover acceptance, the 6-month bug-fix support period commences. Response within 5 business days.

6. POST-HANDOVER SUPPORT & OPTIONAL RETAINER

Following the 6-month included bug-fix support window, Lucaz Soft has no further obligation unless a separate paid retainer is agreed in writing. The following optional retainer tiers are available:

Tier	Monthly Rate (NPR)	Response Time	Coverage
Basic Support	NPR 5,000 / month	5 business days	Bug fixes within PRD v2.0 scope only. Max 10 hours/month.
Standard Support	NPR 10,000 / month	2 business days	Bug fixes + minor tweaks to existing features. Max 25 hours/month.
Full Maintenance	NPR 20,000 / month	Same-day priority	Bug fixes + minor features + hosting management + security patches. Unlimited hours.

Without a retainer agreement, the Client is fully responsible for: server security patches and vulnerability fixes; platform updates and compatibility fixes; third-party API changes (Nepal Pay, SMS gateway); and any bugs or issues discovered after the 6-month window. This requires an in-house technical team or a separate engagement with Lucaz Soft or another development agency.

7. INTELLECTUAL PROPERTY

7.1 Transfer of Ownership to Client

Upon receipt of the final milestone payment (Milestone 4), full and exclusive intellectual property rights in the TMS platform as built for the Client shall transfer absolutely to Sanskardip Shikshalaya (the “Client”). This transfer includes, without limitation:

- The complete source code of the Client’s TMS instance (frontend, backend, and database code);
- The Client’s specific database content, configuration, and deployed schema instance;
- All custom business logic, workflows, fee structures, and feature configurations built specifically for the Client;
- The Client’s branding, content, naming, and any institution-specific customisation; and
- Accompanying documentation, API references, and deployment scripts delivered under Section 5.

The Client owns this delivered application outright and may use, modify, rebrand, and resell it without restriction, as further described in Section 7.3 below.

7.2 What Lucaz Soft May Reuse and What It May Not

Plain-language summary, for clarity:

Lucaz Soft is not handing your software, or a copy of it, to any other client. What Lucaz Soft retains the right to reuse is its own general-purpose engineering toolkit: the programming languages, frameworks, coding patterns, and reusable infrastructure components it would use to build similar systems for other institutions. None of Sanskardip Shikshalaya’s own data, configuration, business rules, or branding will ever be copied, reused, or shown to another client.

To remove any ambiguity, the parties agree to the following definitions:

(a) “Retained Technology” (Lucaz Soft may reuse this): general-purpose programming languages, frameworks, and libraries (e.g., React, Node.js, PostgreSQL); generic, non-client-specific reusable code modules, UI components, and engineering patterns developed before or independently of this engagement; Lucaz Soft’s internal development tools, coding standards, and architectural approach to building tuition-management software in general; and know-how and engineering experience gained while performing this Agreement, to the extent it does not reveal or incorporate the Client’s Confidential Information.

(b) “Client-Specific Materials” (Lucaz Soft may NOT reuse, copy, or disclose this): Sanskardip Shikshalaya’s actual source code repository, compiled build, and database as delivered; the Client’s student records, fee data, financial records, and any other institutional data; the Client’s specific business rules, fee structures, branch configurations, and operational workflows as implemented in the platform; the Client’s name, logo, brand assets, and any content or media supplied by the Client; and any other Confidential Information of the Client as defined in Section 8.

In short: Lucaz Soft may build another school a tuition-management system using the same kind of technology and engineering approach. It may not take Sanskardip Shikshalaya’s organisation-specific ideas, data, configuration, or branding — in whole or in part — and reuse them for any other client, regardless of phrasing or context.

7.3 Client Rights

The Client may freely use, operate, and deploy the delivered TMS platform across any number of the Client's own branches or locations for internal institutional purposes. There is no restriction on the number of branches or users within the Client's organisation. The Client may also freely modify and rebrand the platform. However, the Client may not resell, sublicense, or commercially distribute Lucaz Soft's software development services to third parties the software delivered under this Agreement, once owned by the Client, is the Client's asset to use and, if desired, to resell as the Client's own product, but Lucaz Soft's name or brand must not appear in any such resale unless mutually agreed in writing. Client modifications to the source code void the 6-month bug-fix warranty for the modified components.

8. NON-DISCLOSURE & CONFIDENTIALITY

8.1 General Confidentiality

Each party that receives Confidential Information (the "Receiving Party") from the other party (the "Disclosing Party") shall:

1. Maintain the confidentiality of all Confidential Information and exercise at least the same degree of care in protecting such information as it uses for its own confidential information, but in no case less than reasonable care;
2. Not disclose, publish, or disseminate any Confidential Information to any third party without the prior written consent of the Disclosing Party, except as expressly permitted under this Agreement; and
3. Use the Confidential Information solely for the purposes of performing obligations or exercising rights under this Agreement and not for any personal, competitive, or unauthorized purpose.

8.2 Contract Value Strict Non-Disclosure

The total contract value of NPR 1,50,000 (One Lakh Fifty Thousand Rupees), the milestone payment schedule, the individual phase amounts, and all commercial terms of this Agreement constitute strictly confidential financial information. Both parties agree that this contract value and its breakdown shall not be disclosed, published, shared, or communicated directly or indirectly to any third party, including but not limited to other educational institutions, competitors, media, or the general public, without the prior written consent of both parties.

Breach of this clause by either party shall be considered a material breach of this Agreement and may result in the aggrieved party seeking injunctive relief and/or damages without the requirement for prior mediation as otherwise specified herein.

8.3 Client Data & Student Privacy

Lucaz Soft shall treat all student data, fee records, and institutional data provided by the Client during the engagement as strictly confidential and shall not use, disclose, or retain such data beyond what is necessary to deliver the Services. Upon project handover, Lucaz Soft shall purge all copies of Client data from its systems within thirty (30) days

9. INDEPENDENT CONTRACTOR

The relationship between Lucaz Soft and the Client is that of an independent contractor. Nothing in this Agreement shall be construed to create a partnership, joint venture, or employer-employee relationship. Lucaz Soft personnel are not employees or agents of the Client and are not authorised to make commitments on the Client's behalf.

10. KEY TERMS & CONDITIONS SUMMARY

IP Transfer	Full intellectual property in the Client's delivered TMS instance — including its source code, data, configuration, and branding — transfers to Sanskardip Shikshalaya upon receipt of the final milestone payment (NPR 30,000 — Milestone 4).
Lucaz Soft's Retained Rights	Limited strictly to general-purpose technology, frameworks, and reusable engineering patterns ("Retained Technology", see Section 7.2). Excludes the Client's source code, data, business logic, configuration, and branding, which remain exclusively the Client's and may never be reused for other clients.
Source Code Delivery	Delivered via private Git repository transfer or encrypted ZIP archive (all frontend – React, backend – Node.js, database – PostgreSQL).
6-Month Support Scope	Bug fixes within PRD v2.0 defined scope only. Excludes new features, hosting management, third-party API changes, or issues caused by client code modifications.
Hosting Responsibility	Client assumes full hosting, domain, SSL, and server responsibility from the date of handover acceptance.
Third-Party Licences	Client must register and maintain their own accounts for: Nepal Pay merchant, SMS gateway, Firebase (push notifications), and social media API credentials.
Multi-Branch Usage	Unlimited internal use. The Client may operate the TMS across any number of its own branches, campuses, or locations without restriction. No additional licence fee is charged per branch. This right is for the Client's own institutional use only.
Resale Rights	The Client may use the delivered TMS platform across an unlimited number of its own branches and locations for internal use. The Client may NOT resell Lucaz Soft's software development services. Lucaz Soft branding must not appear in any resold product without prior written consent.
Client Modifications	The client may modify the source code freely. Any modifications void the 6-month bug-fix warranty for the modified components.
Warranty Period	60 days post-handover acceptance. Covers bugs within the original scope only. Void if client modifies the relevant code.
Deposit Refundable	Milestone 1 (NPR 37,500) is non-refundable once development commences.
Refund Lucaz Soft Cancels	Pro-rata refund of payments received for phases not yet delivered, calculated on work completed within those phases.

11. WARRANTIES & REPRESENTATIONS

Lucaz Soft represents and warrants that:

- The TMS will be developed in a commercially reasonable manner consistent with industry standards for web and mobile software development.
- The deliverables shall not infringe any third-party intellectual property rights.
- Lucaz Soft has the full authority to enter into and perform this Agreement.
- All work will be original and will not incorporate any open-source components in a manner that conflicts with the Client's White Label Ownership rights.

The Client represents and warrants that:

- It has the authority to enter into this Agreement and to accept the platform for its intended use.
- It will provide timely feedback, credentials, and approvals necessary for Lucaz Soft to meet the agreed timeline.
- Client-provided content and branding assets do not infringe any third-party rights.

12. FORCE MAJEURE

Neither party shall be liable for delays or failure to perform obligations to the extent caused by events beyond their reasonable control, including acts of God, natural disasters, government actions, internet or infrastructure outages, or other force majeure events. The affected party shall notify the other in writing within ten (10) days. If the delay exceeds thirty (30) days, either party may terminate the Agreement with written notice.

13. TERMINATION

Either party may terminate this Agreement upon thirty (30) days' written notice. Upon termination:

- The Client shall pay for all work completed and delivered up to the termination date, calculated pro-rata against the milestone structure.
- Milestone 1 (NPR 37,500) remains non-refundable if development has commenced.
- If Lucaz Soft terminates without cause, a pro-rata refund shall be issued for phases not yet delivered.
- All confidentiality and IP obligations survive termination.

14. DISPUTE RESOLUTION

In the event of a dispute, the parties shall first attempt to resolve the matter in good faith through direct negotiation within fifteen (15) days of written notice. If unresolved, the parties shall submit to mediation by a mutually agreed mediator in Nepal. Mediation costs shall be borne equally. If mediation fails within sixty (60) days, disputes shall be resolved under the laws of Nepal in the courts of Koshi Province.

15. MISCELLANEOUS

- **Entire Agreement:** This Agreement, together with all SOWs and Exhibits, constitutes the entire agreement between the parties and supersedes all prior discussions.
- **Amendments:** Any modification to this Agreement must be in writing and signed by both parties.
- **Severability:** If any provision is found invalid, the remaining provisions continue in full force.
- **Governing Law:** This Agreement is governed by the laws of Nepal.
- **Assignment:** Neither party may assign its rights or obligations without the prior written consent of the other party.
- **Counterparts:** This Agreement may be executed in counterparts, each of which shall be deemed an original.
- **Non-Exclusivity:** Nothing in this Agreement prevents either party from engaging with other clients or service providers. For clarity, Lucaz Soft's right to work with other clients is limited strictly to reusing its general-purpose engineering tools, programming languages, frameworks (such as React and Node.js), coding patterns, and technical know-how. Lucaz Soft may NOT reuse, replicate, or repurpose any of Sanskardip Shikshalaya's specific business logic, operational workflows, data, branding, or configuration for any other client. The Client's unique institutional concepts and data remain exclusively the Client's property at all times.

IN WITNESS WHEREOF

The parties have executed this Master Service Agreement as of 29 June 2026.
